Applied Social Sciences, Certificate

ASAPSSCERT

Description

The certificate program in applied social sciences prepares students to apply social science tools to real-world problems. Students collaborate to develop case studies, engage in fieldwork, and learn both how to apply expert knowledge and how to communicate evidence. Working with stakeholders, students identify and solve problems, reform managerial structures and organizational systems, and drive social change.

The certificate program is recommended for students with academic or career interests in human resources, administration, journalism, social work, business, community and civic work, as well as politics, organizing and advocacy, public policy, education and sustainability.

The certificate in applied social sciences requires a minimum of 15 credit hours (at least 12 must be upper division). Students are encouraged to take courses that develop breadth rather than limiting their selection to courses in one particular discipline.

Twelve credit hours must be completed through the School of Social and Behavioral Sciences in the New College of Interdisciplinary Arts and Sciences. A maximum of six credit hours may be shared between the certificate and a New College major.
The certificate requires six core credit hours and nine credit hours of electives. Electives are not limited to the certificate elective list; students should see their academic advisor prior to enrollment. A maximum of three credit hours of individualized instruction or internship may be applied toward the certificate.

Only courses in which a student received a grade of "C" (2.00 on a 4.00 scale) or higher may be used to meet the certificate requirements.

**Required Core Courses -- 6 credit hours**
