Accountancy, BS

Program Description

The School of Accountancy's undergraduate BS program in accountancy offers two tracks during the senior year.

The accounting track is followed by most students and is designed to provide a rich educational experience.

The accounting master's internship is the track designed for the most highly qualified students who wish to commit to the MACC or MTax program during the second semester of their junior year. The internship provides a particularly rich and individualized educational experience during the senior year. It includes a number of distinct advantages for students: a full-time paid internship for credit with a participating accountancy firm, early consideration for scholarships, and possible eligibility for a GMAT waiver and a graduate application fee waiver for the MACC or MTax program (eligibility is determined by the GPA at the time of application).
