Within the nation's most innovative university, the W. P. Carey School is committed to building a tight-knit community. Through small classes, team-based learning and individualized attention every step of the way, your W. P. Carey experience is uniquely your own.

Program Description

Degree Awarded: MS Finance

The W. P. Carey MS in finance at Arizona State University prepares students for a range of career opportunities, including corporate finance, risk management, money management, financial planning, investment banking, consulting and real estate.

In only nine months, students in the program develop deep expertise in corporate finance and asset or portfolio management and are equipped with the tools needed to manage complex financial institutions. Faculty members bring cutting-edge research and decades of real-world experience into the classroom. A lock-step course format allows students to build on concepts throughout the program. A curriculum aligned with CFA Program Candidate Body of Knowledge prepares students to sit for the CFA exams and become a Chartered Financial Analyst®.

As a top-ranked business school, it all adds up to a degree with real value: The W. P. Carey Master of Science in finance delivers the financial qualifications increasingly sought by employers within the corporate finance industry.

Additional Curriculum Information

To account for the difference in the numbers of credit hours offered in the core courses, up to two additional credit hours of electives may be required.

The schedule follows the seven-week quarterly schedule of the MBA program.

Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and the W. P. Carey School of Business.
Applicants are eligible to apply to the program if they have earned a bachelor's or masters degree from a regionally accredited institution in business and management, economics, statistics, computer science or other types of science, engineering, technology and mathematics degree areas.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 credit hours or 90 quarter hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. GMAT test scores
4. one letter of recommendation
5. short answer questions
6. current resume
7. proof of English language proficiency

Additional Application Information
An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

There are two main audiences for the master's degree program: first, recent undergraduates from business, economics or related majors or from programs where quantitative skills have been emphasized; and second, career advancers who have strong quantitative skills and seek to adapt those skills to be more competitive in the job market. Career advancers must be able to commit to a full-time plan of study; the program may not cater to working professionals as it is currently designed.

This program is appropriate for students from undergraduate programs with quantitative underpinnings at either ASU or other universities.

The letter of recommendation should comment on the student's motivation, commitment, achievements, work experience and opportunity for success in the program.

Complete application instructions may be obtained from the department's website.
