Digital Audience Strategy, MS

CSDASMS

Admission to this program is limited to students who do not have an undergraduate degree or minor in digital audiences.

Graduates of this program know how to spearhead audience and organizational growth. Through hands-on learning with real clients and real data, you learn how to create impactful digital strategies while building skills in analytics, SEO, paid and organic social media campaigns, audience research and more.

Program Description

Degree Awarded: MS Digital Audience Strategy
The MS in digital audience strategy prepares students to design and execute large-scale strategies for connecting digital audiences through a data-driven, multidisciplinary, hands-on curriculum.

Students learn to measure and analyze how consumers interact with content online, on social media and on mobile devices. Using those measurement skills, students develop strategies and tactics to grow audiences through search engine optimization, search engine marketing, paid and organic social media campaigns, and digital content creation. They work with real-world clients to develop, test and execute audience growth strategies in real time.

Through required coursework in ethics, media law and entrepreneurship, students learn to make ethical business decisions regarding consumer privacy, digital data security and community engagement. Through elective courses, students develop additional expertise in areas such as management, audience data and intellectual property.

Students graduate from the program ready to drive audience growth and business development in the digital age.
