Science, Technology and Society, Minor

ECSTSMIN

Explore the push and pull between science, technology, public policy and funding and human systems.

Description

The science, technology and society minor is offered to students outside the science, technology and society major, regardless of their major field of specialization. Living in a 21st century world is characterized by rapid technological change and uncertainty. Mastering the intricacies of the interrelationships between technology and human systems enhances a degree in any area and arms graduates with the insights and skills required for success in any endeavor.

**Enrollment Requirements**

**GPA Requirement:** 2.00

**Majors Ineligible to Add This Minor:** None

**Other Enrollment Requirements:** None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree
audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.
