ASU's Mary Lou Fulton Teachers College is one of the top-ranked graduate colleges of education in the U.S. The college's graduate programs develop collaborative leaders who bring people and ideas together to enrich the lives of learners, amplify the impact of educators and improve the performance of education systems.

Program Description

Degree Awarded: MA Learning Sciences

The MA in learning sciences proceeds from an understanding that learning happens in many places, not just in schools.

This program focuses on the power of design thinking to improve educational systems and provides students with a blend of theoretical insights and practical tools that will prepare them to shape learning environments and experiences. The systems-level approach includes cognitive, social and contextual factors and the interactions among them.

Graduates of the program are equipped to design effective learning and teaching systems in a broad range of formal and informal settings that include museums, libraries, workplaces and schools and are well-prepared to become leaders in the development, integration and improvement of these systems.
