Construction Management, Minor

ESCMGMIN

Description

The minor program in construction management is comprised of coursework in construction management processes incorporating the technology and industry practices required to ensure a quality-built environment. Due to industry demands for increased numbers of skilled personnel, this minor provides much needed supplementary knowledge for architecture, engineering and business majors as well as students majoring in sustainability.

Program Requirements

Minor Map (Archives)
2021 - 2022 Minor Map

The minor in construction management requires 21 credit hours. A minimum cumulative 2.00 ASU GPA is needed to complete the minor.

Core Required Courses -- 21 credit hours

CON 244: Working Drawing Analysis (2)
CON 251: Microcomputer Applications for Construction (3)
CON 252: Building Construction Methods, Materials, and Equipment (3)
CON 383: Construction Estimating (4)
CON 453: Construction Technology (3)
CON 495: Construction Planning and Scheduling (CS) (3)
CON 496: Construction Contract Administration (L) (3)
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

**Enrollment Requirements**

**GPA Requirement:** 2.00

**Incompatible Majors:** BS in construction management; BSE in construction engineering

**Other Enrollment Requirements:** None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

**Career Opportunities**

Construction management graduates can be employed as:

- building services engineer
- building surveyor
- facilities manager
- site engineer
- sustainability consultant
