Degree Awarded: MM Composition
The MM program in composition focuses on the development of skills required for a career in music composition.

Composers learn through experiential opportunities, including composing for fellow student performers leading to performances of their works in venues on campus and off. Project-based experiences include working with the Visiting Quartet Residency program and creating new works for student string quartets.

Students develop advanced skills such as orchestration, electronic studio techniques, film and video scoring, and jazz composition in the degree program. Collaboration with music scholars, theorists, performers, educators and other composers under the guidance of renowned composition faculty provides students with a broad and well-rounded foundation for advanced careers in music.
