Program Description

Degree Awarded: DMA Music (Performance)

The DMA in music with a concentration in performance is a professional degree program for advanced musicians desiring high levels of performance instruction and experience as well as preparation for teaching positions at the university level. Students work with faculty mentors toward achieving a professional level of performance through individual recitals, chamber music, choral, orchestral, jazz, musical theatre and operatic ensembles, depending on their area of emphasis.

Performance opportunities both on and off campus further develop the knowledge and abilities necessary to become a leader in a musical community through teaching, performing or arts advocacy. The program provides students the opportunity to work closely with an individual faculty mentor and distinguished guest artists to further enhance musical growth. Students serve as leaders, mentors and models for their younger colleagues in performances, pedagogical experiences and community engagement. The opportunity to collaborate with music scholars, theorists, composers, educators and other performers provides students with the variety of experiences and skills necessary for artistic excellence and leadership in the 21st century.
