Innovation in Global Development, PhD

The PhD program in innovation in global development provides development professionals, and those aspiring to be, the expertise to make an impact on issues facing humanity all over the world. The program takes an expansive view of development theories, policies and practices, using traditional and emerging models, to encourage transformative change.

Program Description

Degree Awarded: PHD Innovation in Global Development

The PhD program in innovation in global development emphasizes critical and diverse perspectives on global development, and innovative policies and practices that challenge the status quo. This program is both rigorous and flexible, designed to meet the needs of a diverse set of students committed to a vision of development that values context, inclusivity and equity, and is socially, culturally and ecologically sensitive. Students will emerge from this program equipped with the leadership skills, critical thinking skills, knowledge and global perspective required to navigate complex development challenges in a way that reduces inequalities and builds a more sustainable and inclusive future.
