Exploration Systems Design (Sensor Networks), MS

LAESDSNMS

Program Description

Degree Awarded: MS Exploration Systems Design (Sensor Networks)
The MS program in exploration systems design with a concentration in sensor networks promotes the
development and growth of engineering-literate scientists and science-literate engineers interested in the
use of robotics, data science and other computational tools applied to science problems in Earth and space
sciences. Its unique curriculum combines science applications with engineering knowledge and skills
through engineering and science courses focused on Earth science, space science and astrophysics. The
concentration trains students to solve the some of the most complex science problems humanity faces
using modern computational tools.

At a Glance

- College/School: The College of Liberal Arts and Sciences
- Location: Tempe campus

Degree Requirements

Required Core (5 credit hours)
SES 501 SESE Colloquium (1)
SES 502 Exploring SESE Research (1)
SES 510 Graduate Exploration Project I (3)

Concentration (9 credit hours)
CEN 571 Hardware Acceleration and FPGA Computing (3)
EEE 507 Multidimensional Signal Processing (3)
EEE 511 Artificial Neural Computation (3)  
EEE 515 Machine Vision and Pattern Recognition (3)  
EEE 551 Information Theory (3)  
MAE 547 Modeling and Control of Robots (3)

**Electives or Research (13 credit hours)**

**Culminating Experience (3 credit hours)**  
SES 511 Graduate Exploration Project II (3)

**Additional Curriculum Information**  
Students select three courses from the available concentration coursework.

For elective coursework, students select from the AST, GLG, SES or engineering courses in consultation with their faculty advisor. Six credit hours must be science coursework approved by the faculty advisor. Other courses can be used with academic unit approval.

**Admission Requirements**

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in engineering, physical science or a related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee  
2. official transcripts  
3. written statement  
4. three letters of recommendation  
5. proof of English proficiency

**Additional Application Information**  
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.
