German, BA

Whether you want to learn about the long tradition of medieval courts, are intrigued by Germans' success in the business world or are imagining a career in the natural sciences, performing arts, sustainability or the humanities, a major in German helps you translate the world from a new perspective.

Program Description

Students in the BA program in German study the language, literature and culture of German-speaking people and gain competence in reading, writing, and oral and aural skills in the language. The program offers thought-provoking, engaging classes and experiences led by a core of faculty eager to help students succeed in achieving their goals. German classes provide opportunities for exploring how people in German-speaking Europe:

- understand the world through literature, film, the performing arts and other cultural practices
- engage with the worlds of politics, economics, social justice and humanitarianism
- think deeply about philosophy, the influence of history and the environment
- have become global leaders in the fields of business, engineering and the natural sciences

Students are encouraged to participate in the School of International Letters and Cultures faculty-directed summer abroad program in Regensburg or in a semester or academic-year exchange program available at several German universities.
