Microbiology, PhD

Program Description

Degree Awarded: PHD Microbiology

The PhD program in microbiology offers a dynamic research environment; a broad range of basic, translational and use-inspired research areas; cutting-edge transdisciplinary training; and opportunities to work with world-class faculty and collaborative research partners committed to training scientific leaders with skills necessary to address significant global microbiological problems and challenges.

Faculty members are associated with the School of Life Sciences, The Biodesign Institute, The Translational Genomics Institute, Barrow Neurological Institute, and other area hospitals and research centers.

The microbiology doctoral program prepares students for research and teaching careers in bacteriology, virology, mycology, immunology and oncology at universities and colleges, government agencies and industry.

At a Glance

- College/School: The College of Liberal Arts and Sciences
- Location: Tempe campus

Degree Requirements

84 credit hours, a written comprehensive exam, an oral comprehensive exam, a prospectus and a dissertation

The plan of study is designed by the student and the supervisory committee, which consists of a professor in the major and three additional faculty members. The program is tailored to the needs of the individual student.

Eighty-four credit hours are required.

A formal defense of the final written dissertation is required prior to graduation.
The remaining credit hours are comprised of coursework showing breadth in microbiology and related disciplines, seminars and research.

Twelve credit hours of dissertation are required.

Written and oral comprehensive examinations are required in order to advance to candidacy.

Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and The College of Liberal Arts and Sciences.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in the biological sciences, biochemistry or a closely related field from a regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

Applicants must submit the following:

1. graduate admission application and application fee
2. official transcripts
3. academic record form
4. personal statement
5. curriculum vitae or resume
6. GRE scores
7. three letters of recommendation
8. proof of English proficiency

Additional Application Information

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency.

Prior research experience is a desired qualification for admission.
