Museum Studies (Graduate Certificate)

The ability to present information in a tangible, real-word environment is a critical part of the preservation and proliferation of human culture. This graduate-level certificate will equip you with display-building skills to better connect visually, intellectually and emotionally with visitors in a museum, gallery or other cultural or professional setting.

Program Description

Degree Awarded: Certificate Museum Studies (certificate)

In the museum studies certificate program, students examine how museums produce and reflect culture and examine the role museums play worldwide.

Students develop theoretical questions and applied skills that engage the functions, practices and critical analyses of museums. They also gain practical experience while being encouraged to challenge preconceived notions about museums and the way they affect and are affected by societies and cultures. Designed to be use-inspired, socially embedded and transcultural, the program ensures that students understand the meaning and significance of museums in contemporary society and prepares them for diverse museum careers.
