Philosophy, BA

LAPHIBA

Accelerated options for this program are not currently available to ASU Online students.

Strengthen your foundational skills, such as reading comprehension, and develop skills in reasoning and argument construction to become a better thinker. Studying philosophy prepares you to answer moral and ethical questions that relate to a variety of careers.

Program Description

The BA in philosophy teaches students how to think well, which in turn lays the foundation for personal and professional success.

Philosophy students learn how to structure arguments, write precisely and clearly, and communicate their ideas in an orderly, persuasive and unambiguous way. Many philosophical texts are complicated, and philosophy courses teach students how to read, comprehend and summarize conceptually difficult material. In short, studying philosophy trains one to be a better, clearer thinker.

Coursework includes the major subfields of philosophy, such as metaphysics, epistemology and ethics, and electives that connect philosophy to other areas of inquiry, emphasizing the social relevance of philosophy.

Philosophy alumni are well prepared for leadership roles whatever path they take, whether it be in business, law, politics, medicine or education.

Students currently enrolled in the Bachelor of Arts in philosophy may not pursue a concurrent degree with the Bachelor of Arts in philosophy with a concentration in morality, politics and law or the Bachelor of Arts in philosophy with a concentration in science, nature and mind due to the high level of overlap in curriculum. Students should speak with their academic advisor for any further questions.
