Additional Curriculum Information
The electives taken are selected with the faculty advisor. The faculty advisor helps to directionalize the electives to ensure they have a common theme. This helps to ensure students' experiences in the courses align with the learning goals outlined for the certificate.

The culminating experience is a community-based practicum experience and a paper that synthesizes students' interests with their implications for social transformation. The practicum placement will be with a local nonprofit or governmental organization working toward social innovation and social change. Students are assisted in identifying a practicum placement by the program advisor. At the end of the practicum, students produce a paper which analyzes the social and political dimensions of some issue within social transformation or some aspect of it. The paper also should identify the implications of this aspect or issue for social policy and social justice. The paper should begin within the context of the practicum experience and will be presented to the designated subset of the certificate executive board for final approval. Students take SST 580 Practicum to complete the practicum and then revise, improve and finalize the paper with a certificate faculty member.
