Social Welfare, Minor

LASSWMIN

Description

The social welfare minor program prepares students for work in human service settings where a fundamental knowledge of human relations is required. It complements careers in journalism, communications, public administration, nursing and related fields, and provides a foundation for students who seek to pursue an MSW.

The minor enhances and broadens students' abilities to analyze complex family, individual and societal problems in the context of societal values, cultural diversity and other social and economic variables. The program contributes to students' understanding of society and social behavior, encourages critical thinking and helps develop communication skills.

Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor.
