Applied Biological Sciences (Natural Resource Ecology), BS

LSABSNRBS

Do you have a passion for wildlife, for exploring nature and for seeing that our world's natural resources and lands are managed in sustainable ways? Gain an excellent foundation in science while you enjoy lots of field opportunities that enable you to build expertise for careers that connect with conservation and restoration of biodiversity and habitats.

Program Description

The BS in applied biological sciences with a concentration in natural resource ecology is for students who are interested in sustainably managing and restoring degraded plant, soil and wildlife resources. Range conservationists, wildlife managers and other ecologists work in a variety of ecosystems to ensure sustainability of our natural resources for future generations.

Graduates of this degree program have the academic background and hands-on experience that allow them to work in government agencies or environmental consulting firms or to enter graduate programs in the area of natural resource ecology.

This major is eligible for the Western Undergraduate Exchange program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150% of Arizona resident tuition plus all applicable fees. Students should click the link for more information and eligibility requirements of the WUE program.

Accelerated Program Options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Admission Requirements

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman | Transfer | International | Readmission

Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should refer to https://changingmajors.asu.edu/request for information about how to change a major to this program.

Transfer Options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use the Transfer Map search to outline a list of recommended courses to take prior to
ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and help students save time and money in their college journey. Students may learn more about these programs by visiting the admission site: https://admission.asu.edu/transfer/pathway-programs.

Global Opportunities

Global Experience

The natural world is complex and diverse, providing different resources from one biome to the next. Not only are natural resources varied across the globe, so are the uses of them. Students who study abroad gain a deeper understanding of global resources, how different cultures use them, and how best to communicate sustainable use to a diverse audience. Programs range from a summer trekking across New Zealand to a semester in Costa Rica and many more. https://mystudyabroad.asu.edu/

Career Opportunities

Career opportunities include employment in public agencies and private consulting firms, and includes possible positions such as:

- environmental consultant
- environmental research and education
- natural resource manager
- park manager
- range manager
- watershed manager
- wildlife biologist or ecologist

Career examples include but are not limited to those shown in the following list. Advanced degrees or certifications may be required for academic or clinical positions.
