Applied Biological Sciences (Natural Resource Ecology), BS

Do you have a passion for wildlife, for exploring nature and seeing that our world's natural resources and lands are managed in sustainable ways? You'll gain an excellent foundation in science while you enjoy lots of field opportunities to build expertise for careers that connect with conservation and restoration of biodiversity and habitats.

Program Description

The natural resource ecology program is for students who are interested in sustainably managing and restoring degraded plant, soil and wildlife resources. Graduates of this degree program have the academic background and hands-on experience that allow them to work in government agencies or environmental consulting firms or enter graduate programs in the area of natural resource ecology. Range conservationists, wildlife managers and other ecologists work in a variety of ecosystems to ensure sustainability of our natural resources for future generations.

This major is eligible for the Western Undergraduate Exchange (WUE) program at the following location: Polytechnic campus. Students from Western states who select this major and campus may be eligible for reduced nonresident tuition at a rate of 150 percent of Arizona resident tuition plus all applicable fees. See more information and eligibility requirements on the Western Undergraduate Exchange (WUE) program.

Accelerated Degrees

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Applied Biological Sciences, MS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Admission Requirements

General University Admission Requirements:

All students are required to meet general university admission requirements.

Freshman | Transfer | International | Readmission

Change of Major Requirements

A current ASU student has no additional requirements for changing majors. Students should refer to https://students.asu.edu/changingmajors for information about how to change a major to this program.

Transfer Agreements

ASU has partnered with colleges and universities in Arizona, California, Illinois and Washington to provide transfer curriculum pathways. Students should select their current institution to see if there is a partnership agreement between the institution and ASU for this degree program. Students who do not see their state or institution listed should check back as ASU is always working on creating new partnerships.
## Global Opportunities

### Global Experience

With over 250 programs in more than 65 countries (ranging from one week to one year), study abroad is possible for all ASU students wishing to gain global skills and knowledge in preparation for a 21st century career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs. [https://mystudyabroad.asu.edu/](https://mystudyabroad.asu.edu/).
Career Opportunities

Career opportunities include employment in public agencies and private consulting firms, and includes possible positions such as:

- environmental consultant
- environmental research and education
- park manager
- range manager
- natural resource manager
- watershed manager
- wildlife biologist or ecologist

Career examples include but are not limited to those shown in the following list. Advanced degrees or certifications may be required for academic or clinical positions.
