Organizational Leadership (Project Management), BA

LSORGLPMB

Become a leader and skilled project manager. Leadership and project management are vital skills in today's job market. Employers from many fields and the public, private and nonprofit sectors seek to hire and promote those who can lead organizations and manage complex projects.

Program Description

The BA program in organizational leadership with a concentration in project management offers theoretically and skills-driven curriculum to prepare students to be excellent project managers and project management leaders.

Students learn to integrate leadership theory and practice in organizational leadership courses. They learn the skills and knowledge that leaders need to lead diverse teams, innovate, solve problems, communicate effectively, assess leadership and organizational effectiveness, manage resources and use emerging technologies in organizations. Students also acquire the skills necessary to manage complex projects: project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.
