Psychology, Minor
LSPGSMIN

Study the mind and human behavior while gaining an understanding of scientific research methods. This program is an excellent complement to majors in the humanities, education and engineering.

Description

Psychology is the scientific study of mind and behavior. The minor program in psychology emphasizes the development of wide-ranging skills in critical thinking and reasoning, research methods, working collaboratively on teams and presenting information in oral and written form. The psychology minor adds value to students’ major degrees through knowledge of concepts, theories and empirical research in human behavior and mental processes.

---

**Enrollment Requirements**

**GPA Requirement:** 2.00

**Majors Ineligible to Add This Minor:** None

**Other Enrollment Requirements:** None

Please note that the department does not offer any iCourse or oCourse sections for this minor.
The minor in psychology is open to all ASU undergraduate majors. Students should consult their academic advisor to determine if the minor is consistent with their educational goals and to be recognized in their particular major.

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.
