Are you fascinated by how political systems and power systems work? In this program, based at ASU's Polytechnic campus, you'll study the ways societal and political issues are intertwined. Gain communication and research skills and enjoy lots of dialog with faculty and peers as part of a small cohort.

**Program Description**

The BS in political science gives students the background and skills they need to gain employment in a relevant profession, to continue their studies in graduate programs in political science or in the social sciences, or to pursue a particular discipline at a professional school.

The program helps students understand the assumptions underlying political science and develop the research skills to analyze complex socio-political issues. Those objectives are accomplished by offering a flexible program and by providing students with both individual and group experiences, working with faculty on concrete intellectual and policy issues.
