Project Management, Minor

Become a skilled project manager and project management leader with a project management minor! Project management is a vital skill in today’s job market. Employers in many fields (engineering, health care, IT, business, etc.) seek to hire and promote those who can skillfully manage complex projects and lead project management teams.

Description

The minor program in project management prepares students to manage complex projects and lead project management teams in a variety of professional settings. The project management minor complements many majors at ASU because project management skills enhance and enrich the skills students receive in a great variety of majors. Students learn the skills needed to manage complex projects in fields like engineering, business, health care, information technology, sustainability, computing, public and nonprofit sectors, and many more. Students learn skills in project leadership, project quality management, project risk management, project schedule management, project cost management and project resource management.

Enrollment Requirements

GPA Requirement: 2.00 (university minimum)

Incompatible Majors: BA in organizational leadership (project management); BA in interdisciplinary studies concentration area in project management

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and minor. Students should contact their academic advisor for more information.
