Wildlife Management, Certificate

Are you interested in biology, conservation, sustainability and management of natural resources? Build your professional credentials for a growing number of environmental careers. Learn more about the student experience.

Description

The undergraduate wildlife management certificate program is for students at ASU interested in biology, conservation, sustainability and management of natural resources. The certificate provides students with professional credentials to qualify for many positions offered by state (e.g., Arizona Game and Fish Department) and federal agencies (e.g., U.S. Forest Service, U.S. Geological Survey, U.S. Bureau of Land Management). The certificate will provide students with application-based and hands-on experience in the field and allow them to engage with wildlife professionals. The certificate may give a hiring edge to those in the growing field of environmental careers in agencies and nongovernment organizations.

A "C" (2.00 on a 4.00 scale) or better is required in each course.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.

Enrollment Requirements

Students interested in pursuing the certificate should speak with an academic advisor in the College of Integrative Sciences and Arts.

A student pursuing an undergraduate certificate must be enrolled as a degree-seeking student at ASU. Undergraduate certificates are not awarded prior to the award of an undergraduate degree. A student already holding an undergraduate degree may pursue an undergraduate certificate as a nondegree-seeking graduate student.
