Communication Disorders in Multilingual/Multicultural Populations (Graduate Certificate)

Speech-language pathologists learn how to work with culturally and linguistically diverse people of all ages with different communication disorders in a variety of contexts, using the latest evidence-based practices in assessment and intervention.

Program Description

Degree Awarded: Certificate Communication Disorders in Multilingual/Multicultural Populations (certificate)

The certificate program in communication disorders in multilingual/multicultural populations provides expanded coursework on working with adults, children and families who are culturally and linguistically diverse. It also provides enhanced academic classes, clinical experience in authentic community-based settings, and engagement in community-centered, interprofessional projects.

Students who complete the certificate program have the knowledge and practical experience to address effectively the needs of culturally and linguistically diverse adults, children and families.

Additional Curriculum Information
A written portfolio in multicultural populations is the culminating experience for the certificate. This is an applied, community-based project that builds depth of knowledge resulting in a paper that students must present to the academic unit. Students should discuss research opportunities with their academic advisor for their portfolio.

As part of the certificate requirements, students also must complete an online module on parent training with culturally and linguistically appropriate techniques.

Students who wish to obtain a bilingual endorsement must complete the Arizona Classroom Teacher Spanish Proficiency Examination administered by the School of International Letters and Cultures.
