Science of Health Care Delivery, BS

The science of health care delivery program serves as the connection between the business of medicine, clinical practice and policy. Upon graduation, you will utilize the knowledge gained to positively and measurably impact the efficient and effective delivery of the patient care experience and the administration of population health initiatives.

Program Description

The science of health care delivery is the study and design of systems, processes, leadership and management used to optimize health care delivery and health for all.

The BS program in the science of health care delivery is designed to provide undergraduate students a foundation in person-centered health care, leadership, critical thinking, population health, informatics, systems engineering, economics and policy. Faculty are comprised of tenure-track and clinically trained professionals who work together to create, teach and disseminate knowledge.

Graduates may pursue entry-level positions in health care administration, program management, policy, or pursue further education through graduate programs.

Accelerated Program Options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:
Global Management, MGM

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Admission Requirements

General University Admission Requirements:
All students are required to meet general university admission requirements.

Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should refer to https://changingmajors.asu.edu/request for information about how to change a major to this program.

Transfer Options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use the Transfer Map search to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and help students save time and money in their college journey. Students may learn more about these programs by visiting the admission site: https://admission.asu.edu/transfer/pathway-programs.
Global Opportunities

Global Experience

With over 250 programs in more than 65 countries (ranging from one week to one year), study abroad is possible for all ASU students wishing to gain global skills and knowledge in preparation for a 21st-century career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs.
