The science of health care delivery program serves as the connection between the business of medicine and clinical practice. Faculty is comprised of tenure-track and clinically trained faculty who work together to create, teach and disseminate knowledge to positively and measurably impact the delivery of the patient care experience, population health and reduction of cost.

Program Description

The science of health care delivery is the study and design of systems, processes, leadership and management used to optimize health care delivery and health for all. The BS program in the science of health care delivery is designed to provide undergraduate students a foundation in person-centered health care, leadership and critical thinking, population health, informatics, systems engineering, and economics and policy. Graduates may pursue entry-level positions in health care administration, delivery or policy, or pursue further education through graduate programs.

Admission Requirements

General University Admission Requirements:

All students are required to meet general university admission requirements.  
Freshman | Transfer | International | Readmission

Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should refer to https://changingmajors.asu.edu/request for information about how to change a major to this program.

Transfer Options

ASU is committed to helping you thrive by offering tools that allow you to personalize your transfer path to ASU. Students may use the Transfer Map search to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools, and resources and help students save time and money in their college journey. Learn more about these programs by visiting the Admissions site.

Global Opportunities

PLuS Alliance
Global Experience

With over 250 programs in more than 65 countries (ranging from one week to one year), study abroad is possible for all ASU students wishing to gain global skills and knowledge in preparation for a 21st-century career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs. https://mystudyabroad.asu.edu

The College of Health Solutions recommends the following study abroad programs for students majoring in science of health care delivery: http://links.asu.edu/SAO.health-care-delivery.
