Are you interested in providing high quality, patient-centered mental health care for patients of all ages? Consider our DNP family psychiatric and mental health nurse practitioner program. Enjoy the flexibility of some online instruction combined with the benefits of a campus experience.

Program Description

Degree Awarded: DNP Advanced Nursing Practice (Family Psychiatric and Mental Health Nurse Practitioner)

DNP graduates are prepared to practice at the most advanced level of nursing. This Doctor of Nursing Practice degree program, accredited by the Commission on Collegiate Education, provides a foundation for the specialty through graduate courses in the application of theory to advance practice. The focus is on development of expertise in providing mental health care to individuals of all ages within traditional, nontraditional and culturally diverse families. Courses are designed to prepare students for certification in advanced nursing as a family psychiatric mental health nurse practitioner.

This program is offered in a hybrid iCourse format that requires students to travel to campus for up to a week for orientation at the beginning of the program and then two or three times per semester.

Focused clinical experiences are arranged with appropriate preceptors and administrators. Every attempt will be made to arrange these in the student's geographical area. In the event that clinical sites are unavailable in that area or if the faculty determine the student needs additional faculty supervision of skills, the student will be required to complete their clinical experience in the Phoenix area. Experiences with disadvantaged and multicultural populations are encouraged as are experiences in rural areas, and sites are available for these experiences.

At a Glance
Degree Requirements

84 credit hours including the required applied project course (DNP 707)

Required Core (41 credit hours)
DNP 601 Theoretical Foundations for Advance Practice Nursing (3)
DNP 602 Evaluating Research for Practice (3)
DNP 604 Advanced Human Pathophysiology Across Lifespan (4)
DNP 605 Advanced Health Assessment Across Lifespan (3)
DNP 608 Applied Pharmacotherapeutics Across Lifespan (3)
DNP 609 Advanced Practice Nursing Role (1)
DNP 679 Biostatistics: Principals of Statistical Inference (3)
DNP 703 Innovation in Communication: Scholarly and Professional Writing (2)
DNP 704 Principles of Evidence-Based Care in Advanced Practice (4)
DNP 705 Health Care Outcome Management (3)
DNP 708 Systems Thinking in a Complex Healthcare Environment (3)
DNP 709 Individual and Innovation Leadership in Healthcare Practice (3)
DNP 711 Healthcare Policy and Innovation (3)
DNP 715 Dynamics and Principles of Information in Health Care (3)

Concentration (41 credit hours)
DNP 660 Advanced Neuropsychopathology Lifespan (2)
DNP 671 Advanced Mental Health Assessment Across the Lifespan (2)
DNP 672 Psychopharmacology Across the Lifespan (3)
DNP 673 Mental Health Promotion Across the Lifespan (3)
DNP 674 Mental Health Promotion Across the Lifespan Practicum (3)
DNP 675 Management of Common Mental Health Disorders Across the Lifespan (3)
DNP 676 Management of Common Mental Health Disorders Across the Lifespan Practicum (5)
DNP 677 Management of Complex and Chronic Mental Health Disorders Across the Lifespan (3)
DNP 678 Management of Complex and Chronic MH Disorders Across the Lifespan Practicum (5)
DNP 712 Clinical Residency and Management (12)

Culminating Experience (3 credit hours)
DNP 707 Disseminating Evidence to Advance Best Practice in Health Care and Health Policy (3)

Additional Curriculum Information
Completion of an evidence-based doctoral applied project focused on a clinical issue relevant to advanced practice nursing is required.
The American Nurses Credentialing Center has recommended a minimum of 1,000 postbaccalaureate practicum hours for all students completing a DNP. This program includes 1,125 practicum hours, exceeding the ANCC requirement.

When approved by the student's supervisory committee and the Graduate College, this program allows up to 30 credit hours from a previously awarded master's degree to be used for this program.

**Admission Requirements**

Applicants must fulfill the requirements of both the Graduate College and the College of Nursing and Health Innovation.

Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in nursing from a nationally recognized, regionally accredited institution.

Applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in the last 60 hours of a student's first bachelor's degree program, or applicants must have a minimum of a 3.00 cumulative GPA (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate admission application and application fee
2. official transcripts
3. three professional letters of recommendation
4. resume
5. goal statement
6. admission essay
7. proof of English proficiency

**Additional Application Information**

An applicant whose native language is not English (regardless of current residency) must provide proof of English proficiency per the Graduate College requirement and all requirements for the Commission on Graduates of Foreign Nursing Schools.

A current unencumbered RN license in the state in which the student plans to do clinical practicums is required. All students are also required to have an unencumbered Arizona RN license or an unencumbered compact state RN license as mandated by the Arizona State Board of Nursing. The RN license must remain unencumbered throughout enrollment in any nursing program.

An interview with program faculty is required.
One year of clinical experience working in the student's specialty population is preferred.

Health and safety requirements include passing disposition on a background clearance and satisfactory completion of a substance screen.

No admission examination is required.

**Application Deadlines**

**Fall**
