Health Care Compliance and Regulations, BS

When it comes to health care, details matter. Patients need experts who can ensure every step of their care is safe and ethical. In the nation's first accredited compliance and regulations undergraduate program, you will learn to identify and mitigate risky health care practices while promoting a regulatory-compliant environment.

Program Description

The BS in health care compliance and regulations is a full undergraduate degree program dedicated to the training of compliance specialists and the first to be accredited by the Compliance Certification Board®. [https://www.corporatecompliance.org/certification](https://www.corporatecompliance.org/certification)

Students are offered the opportunity to learn best practices from a broad array of industry experts (providers, regulatory agencies, government payers, and others) within the medical industry, giving graduates options from which to channel their career in health care compliance.

This program is ideal for anyone interested in the ethical, regulatory and business sides of the health care industry. Program areas of emphasis include:

- industry standards for accreditation and auditing
- data privacy, security, and analysis concepts
- revenue cycles, including current billing and coding procedures
- local and federal compliance policies, laws and regulations

### Admission Requirements

**General University Admission Requirements:**
All students are required to meet general university admission requirements.

[Freshman](#) | [Transfer](#) | [International](#) | [Readmission](#)

### Change of Major Requirements

A current ASU student has no additional requirements for changing majors.

Students should refer to [https://changemajor.apps.asu.edu](https://changemajor.apps.asu.edu) for information about how to change a major to this program.

### Attend Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information [here](#).

### Transfer Options

ASU is committed to helping students thrive by offering tools that allow personalization of the transfer path to ASU. Students may use [MyPath2ASU™](#) to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools and resources, and help students save time and money in their college journey. Students may learn more about these programs by visiting the admission site: [https://admission.asu.edu/transfer/pathway-programs](https://admission.asu.edu/transfer/pathway-programs).
Global Opportunities

Global Experience
Students gain valuable experience when studying abroad, experience that will enhance their resumes. With over 250 programs available, study abroad allows students to tailor their experience to their unique interests and skill sets. Students majoring in health care compliance and regulation can learn about other global health care systems and how they are regulated.

Graduates who possess the heightened cultural competency, leadership and critical thinking skills they acquired when studying abroad may stand out in a competitive field. https://goglobal.asu.edu/

Career Opportunities

Graduates may be employed as:

- compliance analysts or specialists
- compliance leads or trainers for health care operations (revenue, clinical care, research, education)
- health care regulatory affairs analysts or specialists
- HIPAA privacy compliance analysts or specialists
- internal auditors, claims auditors or audit response leads
- Medicare and Medicaid compliance analysts or specialists
- special investigation unit analysts or specialists
- patient safety survey specialists
- regulatory compliance specialists

Career titles and salaries listed below are not necessarily entry level and take into consideration years of experience, geographical locations, and advanced degrees or certifications.

Career examples include but are not limited to those shown in the following list. Advanced degrees or certifications may be required for academic or clinical positions.
