Health Care Compliance and Regulations, BS

With the BS degree in health care compliance and regulations, you will be prepared for a career as a health care compliance professional who works in hospitals, medical centers, physician offices and other health-focused agencies to ensure compliance with federal, state, local and organizational rules, regulations, policies and best practices.

Program Description

The BS program in health care compliance and regulations is the first undergraduate degree program in the U.S. dedicated to the education and training of compliance specialists in the health care environment. This program offers students the opportunity to learn best practices from business, regulatory, ethics, and the medical industry to channel into a career in health care compliance.
