Health Care Compliance and Regulations, Minor

Description

The minor program in health care compliance and regulations integrates best practices from the business, regulatory, ethics and engineering fields as well as from the medical industry. Students acquire the foundational and advanced knowledge that is required for support of regulatory compliance in a health-focused environment, and the minor's focus on regulatory and ethical compliance enhances a student's major discipline.

At a Glance

- **Location:** Downtown Phoenix campus, West campus

Program Requirements

Minor Map (Archives)
2021 - 2022 Minor Map

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Required Courses -- 16 credit hours

- HCR 259: Compliance and the Health Care Industry (4)
- HCR 263: Introduction to Medical Billing and Compliance (3)
- HCR 360: Data Security and Privacy in Health Care Compliance (3)
- HCR 362: Monitoring and Auditing for Health Care Compliance (3)
- HCR 460: Investigations and Disclosures in Health Care Compliance (3)
Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.

**Enrollment Requirements**

**GPA Requirement:** 2.00

**Incompatible Majors:** BS in health care compliance and regulations

**Other Enrollment Requirements:** None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.

**Career Opportunities**

Students pursuing a minor find that the course in a minor complement and enhance the skill sets and knowledge acquired while pursuing their major program. Although most career areas require more training than a minor can provide, students pursuing the health care compliance and regulations minor often pursue a career on the administrative side of health care organizations.
