Health Care Compliance and Regulations, M

NUHCCRMN

Description

A minor in health care compliance and regulations allows students to combine the knowledge of their major discipline with the foundational and advanced knowledge required to support regulatory compliance in a health-focused environment. The minor integrates best practices from business, regulatory, ethics and engineering fields as well as the medical industry to enhance students' major discipline with a focus on regulatory and ethical compliance in the health care industry.

A "C" (2.00 on a 4.00 scale) or better is required in all courses.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this minor.
Enrollment Requirements

GPA Requirement: minimum 2.00 GPA

Majors Ineligible to Add This Minor: BS in health care compliance and regulations

Other Enrollment Requirements: None

Current ASU undergraduate students may pursue a minor and have it recognized on their ASU transcript at graduation. Students interested in pursuing a minor should consult their academic advisor to declare the minor and to ensure that an appropriate set of courses is taken. Minor requirements appear on the degree audit once the minor is added. Certain major and minor combinations may be deemed inappropriate by the college or department of either the major program or the minor. Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.
