This program's name has changed effective Fall 2018. The previous name was Applied Science (Health Innovation).

Integrate your current health care background with innovation and leadership education with the BAS program in applied science with a focus on health entrepreneurship and innovation.

**Program Description**

The BAS with a concentration in health entrepreneurship and innovation is designed for students with an AAS degree in allied health fields who want to lead transformative change in health through the creation of new products, processes and systems.

Students have the opportunity to examine current evidence-based practice and health care policy through a lens of innovation using an integrated systems perspective, and they hone the skills necessary to be a leader of innovation in a health care context. Students with health-related backgrounds who would like to learn more about innovation and leadership within health care organizations may be interested in the health entrepreneurship and innovation concentration. Students with an Associate of Applied Science degree in business or a related field may also have interest if they have employment experience in the health industry.

**At a Glance**

- **College/School:** College of Nursing and Health Innovation
- **Location:** Downtown Phoenix campus, West campus or online

### Admission Requirements

**General University Admission Requirements:**

All students are required to meet general university admission requirements.

[Freshman | Transfer | International | Readmission](#)

**Additional Requirements:**

Students must have an Associate of Applied Science from a regionally accredited institution to be eligible for admission to BAS in applied science programs at Arizona State University.

### Change of Major Requirements

Students with an Associate of Applied Science degree in health, business or a related field are eligible to change their ASU major to this applied science (health entrepreneurship and innovation) program. Students should refer to [https://students.asu.edu/changingmajors](https://students.asu.edu/changingmajors) for information about how to change a major to this program.

### Attend Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information [here](#).

### Transfer Options
ASU is committed to helping you thrive by offering tools that allow you to personalize your transfer path to ASU. Students may use the Transfer Map search to outline a list of recommended courses to take prior to transfer.

ASU has transfer partnerships in Arizona and across the country to create a simplified transfer experience for students. These pathway programs include exclusive benefits, tools, and resources and help students save time and money in their college journey. Learn more about these programs by visiting the Admissions site.

Global Opportunities

Global Experience

With over 250 programs in more than 65 countries (ranging from one week to one year), study abroad is possible for all ASU students wishing to gain global skills and knowledge in preparation for a 21st century career. Students earn ASU credit for completed courses, while staying on track for graduation, and may apply financial aid and scholarships toward program costs. https://mystudyabroad.asu.edu/.
