Health Innovation, BS

NUHCIBS

Lead transformative change in health through the creation of new products, processes and systems. Pursue this BS in health innovation --- the first of its kind in the country.

Program Description

With a focus on transdisciplinary experiences, the BS program in health innovation provides students with a broad background in the principles of innovation, leadership, complexity science, change theory, collaboration and evidence-based decision-making to prepare graduates to manage implementation of innovation in the health care arena.

This unique program situates students at the intersection of innovation and entrepreneurship in health and healing.
