Nursing Informatics (Graduate Certificate)

NUNINFGRCT

Are you a registered nurse? Consider the graduate certificate in nursing informatics which will provide you with the opportunity to learn how to integrate technological expertise and data management skills in health care settings. The curriculum is designed around learning experiences that are directed to improve access to health care, enhance health care quality and safety, and reduce health care costs. This program supports preparation for the national RN-BC and CPHIMS credentials.

Program Description

Degree Awarded: Certificate Nursing Informatics (Certificate)

Graduates of the nursing informatics certificate are prepared to manage nursing and health informatics systems and create systems for planning, implementing and evaluating nursing and health information systems. This certificate program supports preparation for national certification in informatics and certified professionals in health information and management systems.

This certificate program supports preparation for national certification in informatics and certified professionals in health information and management systems.
