Patient Safety and Health Care Quality (Graduate Certificate)

ASU is no longer accepting new students to this program. Please explore Degree Search for other similar program options.

Health care professionals interested in graduate education related to patient safety and quality should consider this program to receive advanced preparation in the practices and principles of improvement science.

Program Description

Degree Awarded: Certificate Patient Safety and Health Care Quality (certificate)
The certificate program in patient safety and health care quality is open to all bachelor's degree-prepared health professionals.

Graduates are specialists who are able to synthesize innovation principles and best available evidence to develop interventions for implementation. They are also able to lead inter-professional teams to design, deliver and evaluate safety and quality improvement efforts that are patient centered, minimize risk and improve outcomes across diverse practice settings.

This program supports preparation for national certification as a certified professional in health care quality, as a certified patient safety officer and as a certified professional in patient safety.
