Emergency Management and Homeland Security, MA

Currently ranked No. 1 by U.S. News & World Report, this program prepares you to be an agile, results-driven leader in emergency management and public safety. The degree is customizable, with community resilience and disaster management courses, electives, and five concentration options --- to fit your unique goals.

Program Description

Degree Awarded: MA Emergency Management and Homeland Security

The MA program in emergency management and homeland security is designed to assist the professional development of current or future practitioners as the next generation of leaders in these fields. The program emphasizes a blended approach of practical knowledge and broader integrative thinking about the complex societal challenges of the 21st century. Its core values of collaboration between practitioners, faculty and students, public service, commitment to diversity, critical thinking and evidence-based assessment are all central to promoting informed and effective leadership.

One of the unique features of this program is its breadth of content coverage. The program offers the following five distinct concentration areas: emergency management, homeland security, community resilience, biosecurity and threat management, and cybersecurity policy and management. These subject area specializations underscore the program's commitment to strategic thinking about current and future challenges. Likewise, the program has a number of learning opportunities from an international perspective.

When students enroll in this program, they are encouraged to choose one of these area specializations. Students can enroll in the degree program without declaring a concentration. However, selecting a concentration is advisable because doing so assists in developing knowledge, skills and abilities pertinent to an intended career path.

At a Glance
Accelerated Program Options

This program allows students to obtain both a bachelor's and master's degree in as little as five years. It is offered as an accelerated bachelor's and master's degree with:

Public Service and Public Policy (Emergency Management and Homeland Security), BS

Acceptance to the graduate program requires a separate application. During their junior year, eligible students will be advised by their academic departments to apply.

Admission Requirements

Applicants must fulfill the requirements of both the Graduate College and the Watts College of Public Service and Community Solutions.
Applicants are eligible to apply to the program if they have earned a bachelor's or master's degree in criminology or criminal justice, public administration or public service, sociology or social work, public safety or fire service management, parks and recreation management, applied sciences, environmental sciences or geography, public health or another closely related field from a regionally accredited institution.

Applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in the last 60 hours of their first bachelor's degree program, or applicants must have a minimum cumulative GPA of 3.00 (scale is 4.00 = "A") in an applicable master's degree program.

All applicants must submit:

1. graduate application and application fee
2. official transcripts
3. evidence of current employment in an organization in this field or at least two years prior professional experience in this or a related field or a bachelor's degree in a related area is required.
4. two letters of recommendation
5. a written statement
6. proof of English proficiency

Additional Admission Information
An applicant whose native language is not English must provide proof of English proficiency regardless of current residency.

The written statement should be at least one page in length and describe the applicant's educational and career goals and long-term professional development strategy.

Attend Online

ASU offers this program in an online format with multiple enrollment sessions throughout the year. Applicants may view the program description and request more information here.

Global Opportunities

PLuS Alliance
The PLuS Alliance partnership combines the strengths of three leading research universities from three continents — Arizona State University, King’s College London and UNSW Sydney — to create and share knowledge that will solve pressing educational and societal challenges.

Students have the opportunity to collaborate with peers and specialists across the globe through PLuS-partner courses offered online. Through this PLuS Alliance collaboration degree program, students develop transferable global competencies and gain exposure to international teaching and academic content. https://www.plusalliance.org/global-learning-network-programmes
