Nonprofit Leadership and Management, BS

The first Bachelor of Science degree in the nation in nonprofit leadership and management, this vanguard prepares you for key roles in advancing communities through nonprofit and philanthropic organizations. Prominent nonprofits value this program's tradition of excellence and actively seek to hire its graduates.

Program Description

Through the BS program in nonprofit leadership and management, students are empowered to become successful professionals who work to advance the quality of life in communities. The nonprofit sector in the United States is unique in form and function. This sector includes institutions and individuals situated between government, public, business and commerce sectors. With more than 1.6 million organizations in the U.S., the sector employs more people than the finance, insurance and real estate industries combined.

Philanthropy (voluntary action for the public good) is a hallmark of the nonprofit sector as individuals give their time, money and know-how to causes about which they care. Students in the nonprofit leadership and management program learn about the nonprofit sector through curriculum instruction and field experience. The required internship component of the program leads students to professional opportunities within the nonprofit sector. Within the undergraduate degree requirements, students also may choose to pursue the National Certified Nonprofit Professional credential through ASU's affiliation with the Nonprofit Leadership Alliance: [https://www.nonprofitleadershipalliance.org/credential/](https://www.nonprofitleadershipalliance.org/credential/).
