Career Opportunities

The program is primarily focused on providing students with the knowledge and skills required for entry- and mid-level supervisory and managerial positions in the public sector, such as city, county, state and federal agencies, though students would successfully function in many other types of organizations as well. For those who already have work experience, the degree provides further opportunity for promotion.

The American Indian studies concentration provides students with more specialized knowledge about the policy implication of American Indian-related decisions and actions.
