The minor program in recreation management introduces students to community recreation programming and planning for a variety of populations.

The minor allows students enrolled in other undergraduate programs at ASU to broaden their educational experiences; students from such various disciplines as business, education, nursing, public affairs, social work and many others might find this program a beneficial supplement to their existing program.

Students interested in the recreation management minor may also be interested in the school's therapeutic recreation program.

Courses taken for the minor may not count toward both the major and the minor. Students should contact their academic advisor for more information.
