Program Description

Degree Awarded: MGM Global Management (Global Business)

Global business effectiveness requires knowledge and understanding of global dynamics, the ability to simplify and explain complex ideas, and a cosmopolitan view of the world. These three dimensions form the basis of global intellectual capital. In the MGM degree program, this is built inside and outside of the classroom through traditional international business class content delivery reinforced with field-based projects that apply international business content to illustrate social proof of global intellectual capital mastery. The global business concentration prepares students who aspire to become global managers or leaders in their chosen fields.
