Global Management, BGM

This program prepares you for a global marketplace through specialized courses like global marketing, states and markets in a global economy, and multinational organizational leadership. Equipped with a strong, global business background, you are ready for a career in marketing, consulting, foreign service, human resources, entrepreneurship and many others.

Program Description

The BGM degree program draws on Thunderbird School of Global Management's expertise in global management practices and intercultural communication training to provide students with a highly specialized, global business education.

The Bachelor of Global Management program prepares students to take on leadership roles in multinational corporations as well as nongovernmental organizations. Thunderbird's outstanding global management faculty members and strong relationships with global organizations allows students to develop the skills needed to operate effectively in today's globally connected world. Students develop skills that international employers, governments and nongovernmental entities value highly.

The program offers two tracks: the international business, language and culture track in which two years of foreign language is required; and the international business and culture track in which there is no foreign language requirement but there is more emphasis on management-related courses. Students who select the foreign language track may complete coursework in Mandarin or Spanish. Speakers of English as a second language may choose the international business and culture track or choose a third language within the international business, language and culture track. The international business, language and culture track is offered to on-campus students only. Online students may pursue only the international business and culture track.
Students have the opportunity to put the skills they have learned into practice in real-world settings through a required internship. Although students are strongly encouraged to pursue international internships, students may also satisfy this requirement by doing a local internship with an international orientation. Students also complete a senior capstone project of their choice, which draws upon the unique skills they have developed throughout the program. The internship and the capstone project allow students to demonstrate their skills and work experience for potential employers as part of their professional development plan.
