Do your talents and interests range from accounting to zoology? Consider the exploratory program, proven to help students find their passions. This program does not delay graduation and may actually save you time and money, because you took the time to discover a major that fits you.

Program Description

The exploratory mathematics, physical sciences, engineering and technology track offers students an opportunity to explore a variety of majors related to the mathematics, physical sciences, engineering and technology professions. ASU recognizes that many students are not ready to choose a specific academic program of study when first entering the university. Allowing students the option to declare exploratory status permits them to begin meeting general studies requirements that all ASU graduates must fulfill as well as take some time to explore a variety of academic courses that may lead to a potential major interest.

All College of Integrative Sciences and Arts exploratory students are required to enroll in the following major and career exploration courses, which must be taken sequentially:

UNI 150 Major and Career Exploration (1)
UNI 250 Choosing a Major (1)
UNI 270 Career Direction for a Successful Future (1)

For a complete list of all majors associated with this exploratory track, students should reference https://cisa.asu.edu/exp-engineering-math-technology-physical-sciences-majors.

At a Glance

- **College/School:** College of Integrative Sciences and Arts
- **Location:** Downtown Phoenix campus, Polytechnic campus, Tempe campus or online
• **Additional Program Fee:** No
• **Second Language Requirement:** No
• **First Required Math Course:** MAT 117 - College Algebra.

Math courses needed will be determined by potential major choice.

• **Math Intensity:** Substantial

**Required Courses (Major Map)**
