Generous substitution rules allow for course flexibility. Students receiving the digital culture certificate can petition to substitute up to six credit hours. Three credit hours can come from any course related to digital culture through courses offered by any ASU unit on any ASU campus, including the interdisciplinary arts and performance program on the West campus and the film and media studies program on the Tempe campus. Courses may include any on the list of related subjects and substitutions (shown above) or courses with comparable content. The other three substitution hours can be achieved through the following path: The three-hour media arts and design course requirement may be substituted with a three-hour course in the digital culture-related category.

Depending on a student's undergraduate program of study, prerequisite courses may be needed in order to complete the requirements of this certificate.
